

## Cooperation between Palahutev Travel and SOS Children's Villages Bulgaria

At the heart of Palahutev Travel's understanding of doing business is **sharing success**. We believe that by working hard every day and being useful to others, we give meaning to our lives and set a good example.

Since its establishment in 2011, Palahutev Travel has implemented **responsible policies** in various areas. We support projects in the social, educational and environmental spheres. We support non-governmental organizations and individuals who develop sustainable tourism. We make sure that the tour guides, mountain guides and all other contractors we work with receive a decent wage for their work.

Since 2017, Palahutev Travel supports the **SOS Children's Villages Bulgaria**. We empathize with the plight of the most defenseless members of our society – the children.

It is an honor and responsibility for us to be a **SOS bronze partner** and support the activities of SOS Children's Villages Bulgaria - the first civil rights organization in the country that provides direct care for children at risk. In **2023**, we directed our aid to supporting activities of the Consultative Center for Family Support - Pernik, a unit of the programs of SOS Children's Villages Bulgaria. The support was implemented in the following directions: expert consultations (work with a psychologist and work with a speech therapist) and two creative workshops (in the summer and for Christmas). Regular expert consultations are extremely important for children and young people in SOS. Thanks to them, they develop and improve their communication skills and social interaction, overcome emotional-behavioral crises, etc.
